**Venue:**

**USPCAS-W Auditorium, MUET, Jamshoro**

**Organized By:**

Energy & Environmental Engineering Research  
Group (EEERG)  
Mehran University of Engineering and  
Technology, Jamshoro, PAKISTAN

**In Collaboration With:**

The 5<sup>th</sup> International Conference on Energy, Environment and Sustainable Development (EESD-18) is the continual sequel of the previous EESD conferences organized by the Energy and Environmental Engineering Research Group (EEERG) in collaboration of various Departments at Mehran University of Engineering and Technology Jamshoro.

The conference aims to provide a platform for researchers, engineers, scientists and academicians as well as industrial professionals from all over the world to present their research contribution and development activities in the energy sector. EESD-18 provides opportunities for the delegates to exchange new ideas and application experiences face to face, to establish business or research relations and to find global partners for future collaboration.

The EESD-18 conference offers a track of quality R&D updates from key experts and provides an opportunity in bringing in the new and novel techniques and possibilities that will contribute to Energy, Environment and Sustainable Development in future. EESD-18 conference is tailored for everyone to meet face-to-face and discuss a wide spectrum of recent research trends and developments in the emerging technologies in the market whilst keeping in mind the industrial objective of sustainable development growth for Asia.

Guest speakers representing various countries and inter-governmental organizations, practicing consultants, commercial catalysts from the region will speak on a range of topical issues of Energy and Environment and future prospects. All accepted conference papers orally presented following registration shall be published in conference proceedings.
